DISTRICT TELE-OPHTHALMOLOGY SCREENING NETWORK

AI-Assisted Diabetic Retinopathy Triage Dossier • ABDM / Ayushman Bharat Aligned

Patient ID / ABHA:	**ABHA-9821-4412-1001**	**Screening Date:**	09-Nov-2026 11:12 UTC
Age / Gender:	56 Yrs / Male	**BMI (Asian Cutoff):**	0.0 kg/m² (Normal)
Diabetes Status:	**CONFIRMED_DIABETES**	**Stage 1 Risk Score:**	**84/100**

CLINICAL AI SCREENING FINDINGS (MATHWORKS SIH26038 PIPELINE)

Image Quality:	**GOOD**	**DR Severity:**	**Grade 1 — Mild NPDR (NON-REFERABLE (Monitor))**
Model Confidence:	46.4%	**CSME / Macular Risk:**	**LOW (Extramacular) (Fovea Prox: N/A (no lesions))**
Candidate Lesions:	0 Microaneurysms detected	**Vessel Density:**	9.5% retinal area

OPHTHALMIC TELE-CONSULTATION & SIGN-OFF

Physician Action:	**Routine Annual Follow-up**
Clinical Notes:	Screened via ELYTRIVA Tele-Ophthalmology Triage.
Signed By:	**Dr. S. Ramanathan, MD (Ophthal) (Verified Tele-Ophthalmologist)**

PATIENT GUIDANCE / ■■■■ ■■■■■■■

English: MILD: Early diabetic retinal changes noted. Strict glycemic and blood pressure control advised. Repeat retinal screening in 6 months.

हिंदी: प्रारंभिक लक्षण: रक्त शर्करा (शुगर) और बीपी को नियंत्रित रखें। 6 महीने बाद दोबारा आँखों की जांच करवाएं।

CONFIDENTIAL MEDICAL REPORT — Generated by ELYTRIVA Tele-Screening Pipeline (MathWorks SIH26038). This AI system is a decision-support triage aid and does not replace a clinical examination by an ophthalmologist.
